

MT series switch boxes

SPECIFICATION DATA

FEATURES

- High-level weatherproof rating of IP66/67.
- Visual position indicator on 2- or 3-way options for accurate visual of valve position.
- Mechanical, proximity, magnetic switches in various brands.
- Polyester coated body with captive stainless-steel fasteners or full 316 stainless steel.
- Interface for Namur solenoid valve and limit switch boxes.
- ASi and DeviceNet interface available
- Certified for use in all hazardous areas (Class I, Div.1&2, Groups A, B, C and D, Ex d IIB T6, Ex d IIC T6).
- "Quick-set" limit switch setting without tools.

SPECIFICATIONS

See individual model data for specifications

The MT series of switch boxes come in a wide range of IP protection, output options and materials. Each box has multiple approvals and comes with a stainless-steel mount bracket for Namur mounting. Quick set limits make for quick and easy limit switch set up without tools.

Options

- All grade 316 stainless steel version.
- Inductive, mechanical or magnet switches.
- Special colours.
- Coatings in PTFE or Nickel Phosphorus.
- 3 position for 3-way valves
- Communication card with ASi or Devicenet protocol.
